## Flap

Change to a different colour if you want your flap to be in a contrasting colour or keep using your main colour if you prefer.

- You will need to pick up 12 st's from the left edge of the opening (left by working the 10 rows in the middle of the cover). Do this by working a sc into each row, starting with the row above the opening (row 26) and ending with the row below it (row 15). Turn. (12)

- Skip 1<sup>st</sup> st. Sc in next st. Sc x 4 into ch-3 space. Sc dec over last 2. Ch 1 and bind off.

To finish the flap, work a row of sc all around the flap, making a sc in each st (and each row where applicable) around. Ch 1 and bind off.

## Buttons

**You will need 3 buttons.**

You are more than welcome to use good old-fashioned buttons. But just in case you feel adventurous, I have included the instructions for the crochet buttons.

These buttons are made with yarn only. To get a stiff enough end product, use a 3.5mm Crochet hook and sl st the 2 button pieces together to form one button.

- Beginning with a magic ring and a long tail, ch 1. Sc x 7 into the magic ring. (7)
- Sc inc in each st around. Ch1 and bind off. (14)

Repeat for the other side of the button, but do not bind off when you get to the end.

Put the two circles together with their right sides facing out and pull the long tails through the central hole so that both of them are at the "back" of your button. You will use these tails to sew your button to your project.

Now sl st all around the button, working one sl st in each st (through both layers). Bind off and work away your tails. I pulled them through the central hole as well and used all the tails to sew my button to the finished wipes cover.
